

SKIN TREATMENTS

ADVANCED TREATMENTS

MICRO-NEEDLING TREATMENTS

Micro-needling is a cosmetic procedure used to encourage collagen production by taking advantage of the body's natural healing response. Micro-needling is a cosmetic procedure that uses small, sterilized needles to prick the skin. The purpose of this treatment is to generate new collagen and skin tissue to smooth, firm, and tone skin. It is mostly used on the face and may reduce the appearance of acne, scars, dark spots, wrinkles, and large pores.

TREATMENT DURATION: 90Min
BEST RESULTS: Monthly

SKIN TAG REMOVAL TREATMENTS

Our skin tag removal treatment utilises a plasma pen that uses a focused and controlled micro beam of plasma energy to sublimate the superficial part of the skin, without causing any damage to the underlying or adjacent tissue. This treatment is a non-surgical treatment for all those unwanted lesions such as Fibromas, Skin Tags, and non-benign lesions on your face and body.

VAGINAL REJUVENATION

The treatment can be used for rejuvenation of the vagina walls, stress urinary incontinence treatment, sexual enhancement, and menopausal vulvovaginal atrophy symptoms. HIFU Vaginal Rejuvenation (HVR) is performed to tighten and rejuvenate the vaginal canal with a non-surgical procedure. It does not involve any incision, anesthesia, or pain during the procedure. During the procedure, a device is inserted into the vaginal canal. This device uses thermal and ultrasound waves.
